

Goods	Documents required	Customs Prescriptions	Remarks
<b>Air Shipments</b>	A detailed inventory (a list of all items included in the shipment with a corresponding list of values) is required.	Without this inventory, the shipment may be subjected to customs inspection.	Contact your FIDI partner in Japan for specific details and sample.
<b>Consolidated Shipments</b>		<p>Effective May 01, 2007, Japanese Customs has indicated a change in handling Consolidated shipments for multiple shippers.</p> <p>Prior handling requirements allowed the inbound container to be taken from arrival direct to Customs for clearance processing. The new requirements call for the freight to be de-vanned at a separate location, normal declarations filed, and the clearance procedure will then be processed. This will add handling of the individual shipments, and possibly increase costs associated with consolidations. It may also increase the normal time to accomplish clearance and release of consolidations.</p>	<p>From March 2014, a vessel operator or a NVOCC would need to electronically submit to the Customs, information on maritime container cargoes to be loaded on a vessel intended to gain entry into a port in Japan. This must in principle be done at least 24 hours before the departure of the vessel. More information can be found on this link:  <a href="http://www.customs.go.jp/english/summary/advance/index.htm">http://www.customs.go.jp/english/summary/advance/index.htm</a></p> <p>Contact your FIDI partner in Japan for specific details and charges for consolidated shipments.</p>
<b>Removal goods Japanese Citizens</b>	<ul style="list-style-type: none"> <li>• Import declaration (Declaration of unaccompanied baggage) (customs form C-5360-2 for Non-Japanese) (customs form C-5360 for Japanese).</li> <li>• Descriptive inventory (English or Japanese)</li> <li>• Passport of the shipper.</li> <li>• A clear copy of the picture and information page of shipper's passport.</li> <li>• A clear copy of VISA of the country where the shipment comes from.</li> <li>• A clear copy of shipper's most recent entry stamp into Japan: <ul style="list-style-type: none"> <li>- <i>The date should be the same as a stamp on the "Unaccompanied Articles Customs Form C. No.5360"</i></li> <li>- <i>The date should be within 6 months from</i></li> </ul> </li> </ul>	<p>Duty free entry if:</p> <ul style="list-style-type: none"> <li>• Removal goods consist of used household effects, which have been in the owner's use, and they are for his continued use in his new residence.</li> </ul> <p>Owner's VISA valid for more than 1 year prior to importing household goods into Japan.</p>	<p>Customs Form C. No.5360 (Import declaration) can be obtained on the shipper's flight over to Japan. The shipper should request <u>two copies</u> to the flight attendant (as they must be completed in duplicates).</p> <p>The shipper must hand the completed cards to the customs officer at the airport upon arrival, where the cards will be stamped and one copy returned to him immediately.</p>

Goods	Documents required	Customs Prescriptions	Remarks
<p><b>Fumigation of imported and exported wooden crates</b></p>		<p>The Japanese Government adopted ISPM-15 (International standards for Phytosanitary Measures Publication 15) Guidelines for Regulating Wood Packaging Material in International Trade (aka NIFM-15) to standardise the treatment of wood packing materials used for the transport of goods.</p> <p>With a view to harmonizing our regulation with the international standards, definition of good packaging material and measures for it in the regulation is equivalent to that provided in ISPM No.15. Wood packaging material treated and certified according to ISPM No.15 will not be subject to import quarantine procedures. Wood packaging material without the mark (Annex II, ISPM No.15) will be inspected at ports of entry by plant quarantine officers for confirmation of compliance with the regulation. Detection of a quarantine pest constitutes non-compliance, and which is, according to Japanese domestic law, it is subject to disinfestation, incineration or re-shipping by consignee's choice according to the Japanese domestic law.</p>	<p>Based on the result of a pest risk analysis for wood packaging material, Japan amended its Import Plant Quarantine Regulation (MAF Notification No.206, 1950).</p> <p>An outline of this regulation can be found online at <a href="http://www.pps.go.jp/english/woodpack/index.html">http://www.pps.go.jp/english/woodpack/index.html</a>.</p>
